

What I Like To Eat

I really like fast foods and deserts. My favourite desert is a brownie. I love ice cream with it too. Although I like brownie, I don't like cake. These types of foods are my favourite even though they are unhealthy.

My favourite meal is curry. I love a lot of types of curry but my favourite is chicken korma. I could eat it every day!

One of my favourite foods is a vegetable and that is cucumber! Everybody finds it weird that I love cucumber so much but at least it's healthy! I also really love peas in a pod. I think they are way nicer than peas that are sold out of the pod.
