

I will never going to chew gum in this classroom because there is consequences of doing it yesterday I got a lunch time detention. I honestly think that gum should be still band because people chew it and stick it in disgusting places e.g. under the table etc. Another reason why it still should be banned is because it disturbs the class when the teacher tells you to put it in the bin. Although it's kind of unfair because some teachers chew gum and we're not allowed it.
