

# Artwork Response

---

My piece of art is a photo of a waterfall and a small lake. To tell you the truth I don't know the artist or the name of the photo! [Unless it is called "Beautiful landscape photography!"] There are plants growing around the lake and the water looks as if it was made from crystals.

## Personal Response to your artwork.

**Q. How does it make you feel?**

It makes me feel like I have found peace and quiet away from the world. It makes me feel calm, restful and like I don't have a care in the world!

**Q. What does it make you think of?**

It makes me think of a time where my house and the world around me is quiet, content with what they have and that they aren't greedy anymore.
