

History of Skiing

THE FIRST SKIER WITH **2 SKI POLES** WAS IN **1741**. BEFORE THAT THEY USED **1 POLE** OR A **SPEAR**.

IN **1809**, **OLAF RYE** WAS THE VERY FIRST **SKI JUMPER**.

SKIING EXERCISES AND RACES CAME FROM **THE MILITARY**.

THE NAME OF "**SKI**" CAME FROM THE **OLD NORSE**, IT WAS PRONOUNCED NORWEGIAN.

THE EARLIEST SKIS FOUND DATE BACK TO **5000 BC!** IN **9136** THE VERY FIRST **CHAIR LIFT** WAS MADE.

BEFORE THE SKI BOOTS WERE REAL LEATHER WINTER BOOTS.

NOW THEY ARE BETTER AND ARE MADE OF PLASTIC. AS SKIS GOT MORE COMPLICATED SO DID THE BOOTS.

BACK THEN THEY USED **CABLE BINDING**. AND NOW WE USE OUR **FORCE** TO DO IT OURSELVES.
