## WONDER

## BY RJ PALACIO

Wonder is a great book inspired on a real story. But i like to call it fiction because it actually didn't really happen.

August Pullman also known as Auggie was born different. Auggie is searching for friends that dont mind about his face. What i love about this book is that it shows everyone's perspective.

August has a deformed face and that is making him have a hard time through school. He is also CRAZY for Star Wars. Via, Augusts big sister is trying her best to take care of her little brother while she misses her parents attention. Summer is one of August's best friend!!! She has long black curly hair and green eyes. Jack is August's first and best friends. Justin is Via's Boyfriend which respects her family and Via.

I recommend this book from 9 till 99 years and for every gender
