

My ideal school

My ideal school is an enormous building complex surrounded by nature. There is a building with sports facilities, like for basketball, football, table tennis and volleyball. There is also an Olympic size swimming pool with sliding doors which can be opened in summer.

Outside, there is an awesome adventure playground and facilities for playing football, beach volleyball and tennis.

Then there is a music building with all kinds of musical instruments. We can pick any we'd like to play. We also have our own recording studio where we can record music and our own TV show just for school. There are also buildings for science, arts and crafts. We can choose loads of interesting activities like gardening, astronomy and/or cooking.

Our classrooms are really well equipped. We have a huge interactive whiteboard and on each desk there is a laptop. We can choose if we want to write in journals or on the laptop. The laptops are connected to each other so that we can interact when we do something like groupwork. And we can send our work to our teachers, too.

All ~~pupit~~ pupils feel safe and cherished. Nobody is bullied or made fun of in a mean way. Everyone is included no matter which language they speak, what they wear or where they come from. Our teachers are always patient, humorous and helpful. They never yell!! We can do most of our work at school and there is only very little homework.
