## My favourite sport

My favourite sport is table tennis. I really like it, because it's a good team sport and I have a really great coach! I play for a team at my school and I practice at home with my dad. I play it every day, even in winter. I like to watch it on TV, too. Most of my friends are good at it, too. So I often play with them. Our school team wins a lot of matches. We also have beginners who have recently started to play table tennis and our coach allows me and my friends to train them.

My favourite table tennis team is from Germany. They're really good.
