

The Unexplained Space Man!

By Jacob

Backstory....

The picture was taken by the father of the kid (to the Left)
He said there was No one there except him and his daughter.
But as he saw the picture, there was a white clothed man, like a
astronaut. But after researching for years there was only one
explanation which seemed to be the only way that happened. I won't
tell the explanation right now.

UİOİİ TİAİSİK

My art piece represents A picture of an unexplained happening, which that's my reason why I chose it.

I have thought ages about this picture, what happened and how, it never gave real sense. I was Extremely paranoid as I first heard the story about it. It made me feel outrageously confused. There is a rather good explanation, but it still makes me think for ages, but no Answer!

It makes me think of Paranormal substances as spirits and ghosts. I asked myself why would someone simply go out to the hill with a such unusual astronaut clothing like look?
