

How to look after a cat

To look after a cat, you will probably need a warm home, lots of cat food and lots of love! Cats love milk, but don't forget that too much can make them ill. I learned the hard way - my cat threw up all over a brand new rug!

One of the most important things to remember is that cats (especially kittens) love to play!! Make sure that you take the time to have fun with them whenever you can.

A warm home is very important. Cats love to play outside but they need somewhere lovely to rest and sleep.

Sometimes, cats can go a little crazy! My cat goes bonkers and climbs up walls and doors!
